The Fastest Marking System

WAGO Marking Solutions for Greater Safety and Clarity in the Control Cabinet

- Configure high-performance, customized marking solutions using hardware and software that are perfectly in tune.
- Long-lasting, indelible, scratch-proof marking
- Terminal block marking: provide clearer organization in the control cabinet – using multi-line marking strips
- Versatile marking options for cables and conductors
- Broad selection of label types (e.g., printable fabric, push-button markers and type plates) optimizes marking for devices and control cabinets
- Marking media are available in a variety of colors and sizes

Terminal Block Marking

The right marking is essential for clearly organized, service-friendly wiring.

WAGO offers several options for implementing the right marking solution at the right price. Clearly organize and label all control cabinet components using time-saving marking strips and WMB Inline markers.

WAGO provides multi-line marking for added convenience and greater detail that helps reduce installation errors. Continuous marking strips are supplied

on rolls, and can even be used on terminal blocks of different sizes.

WMB Inline markers are connected to one another and can be applied continuously to 3.5 mm, 4 ... 4.2 mm and 5 mm or 5.2 mm wide terminal blocks. They can also be separated for wider terminal blocks. This versatility makes them the perfect fit for any terminal block width.

Device Marking

WAGO's broad selection of label types (e.g., printable fabric, push-button markers and type plates) optimizes marking for devices and control cabinets.

Most labels can be conveniently printed directly from a roll. Additionally, various colors, sizes and frames are available for push-button markers or plastic covers.

Take advantage of WAGO's free software to easily customize marking!
